 **CROC**<sup>®</sup>

**Fork coatings**

Best grip for sure!

# Best grip for sure!

**CROC**® coatings on forks effectively reduce the risk of accidents and save you time, money and trouble thanks to less damage to loads (possibly insurance claims), less clean-up work and smooth transport processes.

Increased slip resistance for the load

Protect loads

Noise reduction

Increased visibility of forks

## Perfectly matched to individual applications

**CROC**® „red unprofiled“  
Polyurethane, 85 Shore A  
3, 5 or 10 mm thick\*  
Increased abrasion resistance

**CROC**® „blue unprofiled“  
Polyurethane, 85 Shore A  
3 or 5 mm thick\*  
FDA-certified\*\*

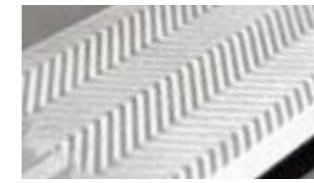

**CROC**® „red profiled“  
Polyurethane, 85 Shore A  
7 mm thick  
Increased abrasion resistance

**CROC**® „yellow profiled“  
Polyurethane, 75 Shore A  
7 mm thick  
Increased slip resistance

**CROC**® GripFix „black“  
60 Shore A, 8 mm thick  
Increased slip resistance even in wet conditions

**CROC**® GripFix „white“  
55 Shore A, 6 mm thick  
Food industry

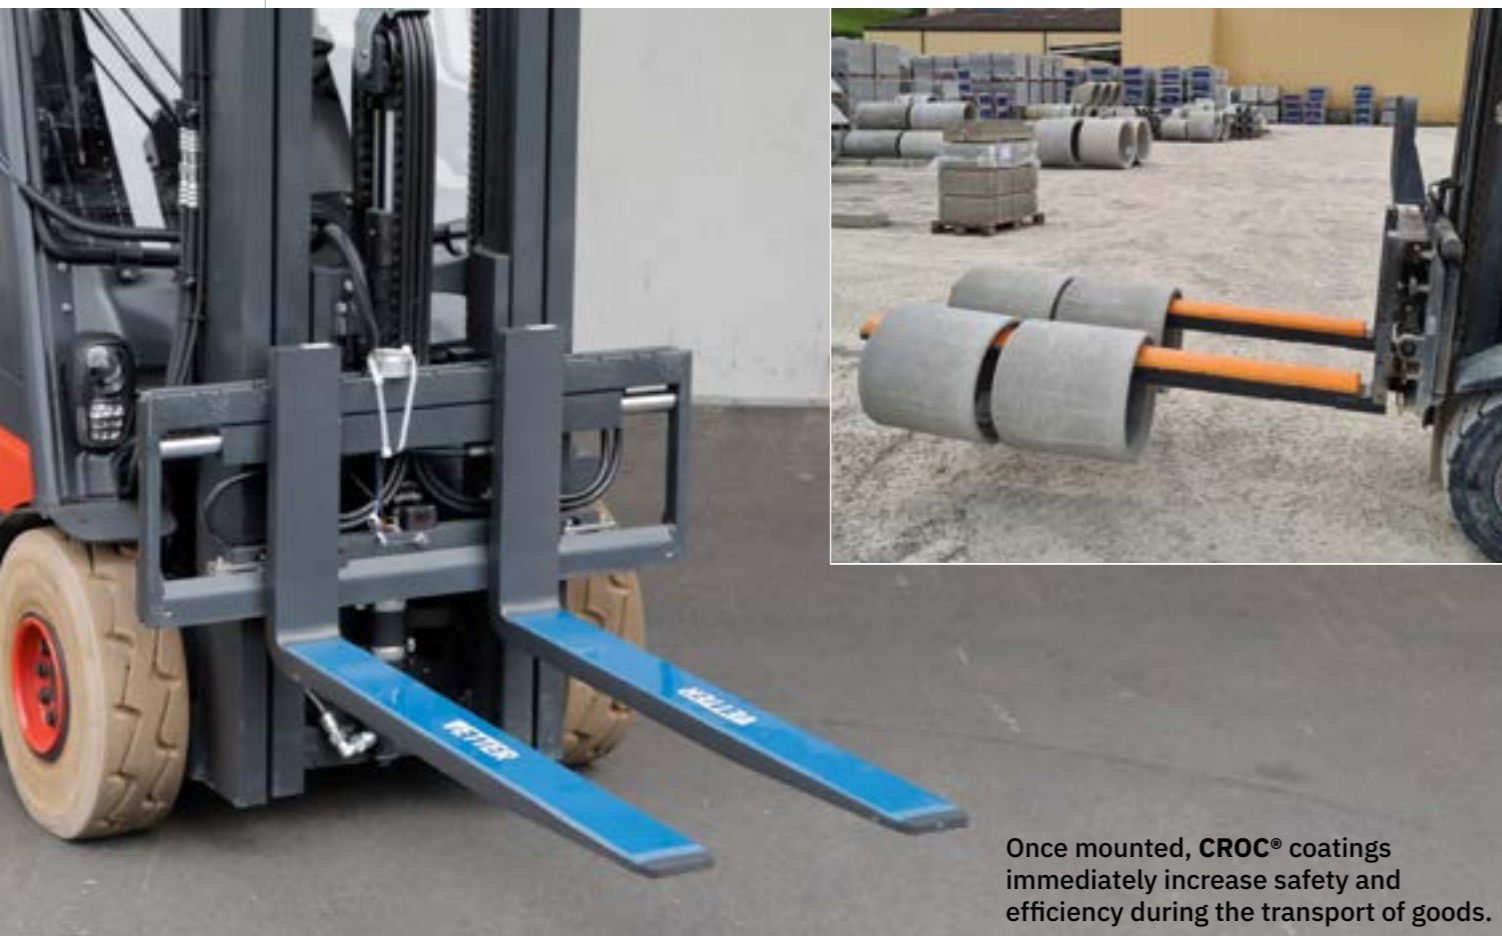

**CROC**® spray coating  
for all-around coatings and complex surface geometries,  
92 Shore A

Anti-slip and anti-noise coating with ATEX approval

\* further thicknesses on request

\*\* FDA certification: Certificate for the use in the food industry (US-Food and Drug Administration)

Once mounted, **CROC**® coatings immediately increase safety and efficiency during the transport of goods.

## Top workmanship and high-quality materials for the tough day-to-day use

✓ Polyurethane and rubber compounds made in Germany

✓ Equipped with collision protection at the fork tip

✓ High-tech special adhesive for long-lasting coating

✓ 1000-fold approved in practice

✓ The competence of Europe's No. 1 fork manufacturer

✓ High abrasion and cut resistance

✓ Temperature and weather resistant

✓ Resistance to oils, acids, chemicals and solvents

✓ Long lifetime
