

# SmartFork<sup>®</sup> Flash

## Entry depths and warning function

### Your benefits

Visibility in cluttered, dark environments

Improved occupational safety

Reduction of accidents

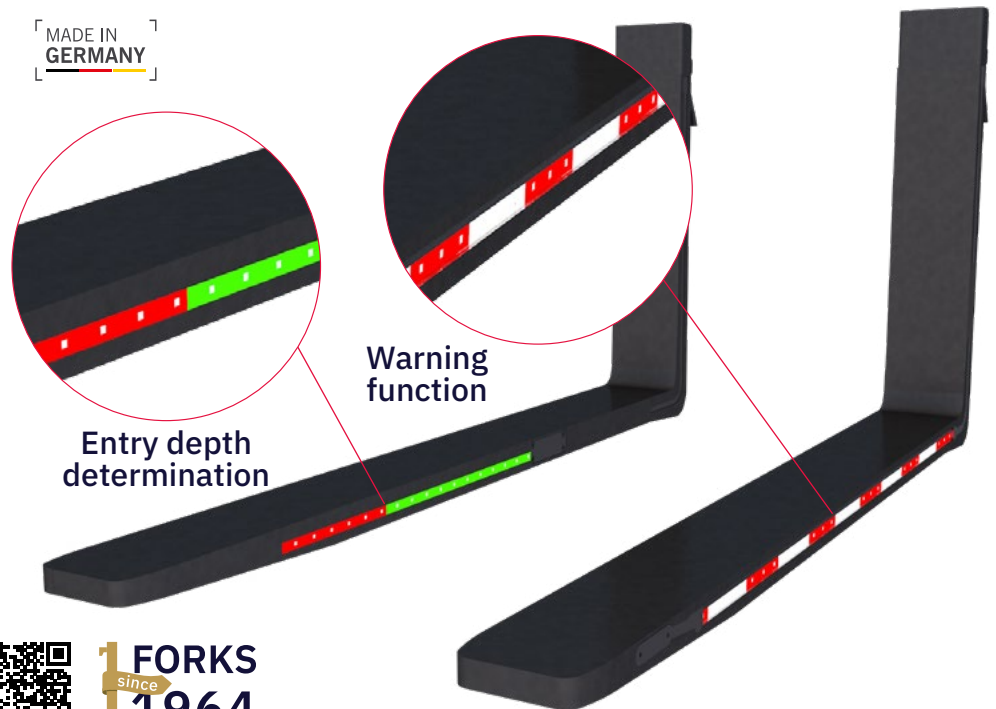

Safe loading of pallets standing in a row

### Integrated LEDs laterally in the fork blade

- Tip thickness only 28 mm despite fully integrated components
- LEDs may be programmed according to the desired function
- Entry depth determination (inner fork blade): The LED strip is programmable according to the respective pallet size
- Warning function (outer fork blade): Forks are visible from afar in dark and unclear environments

MADE IN GERMANY

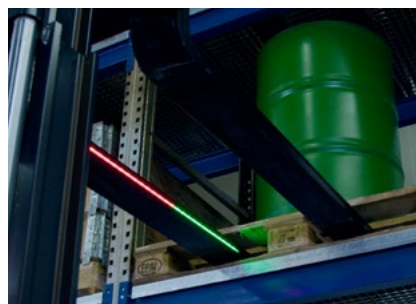

Entry depth determination

Warning function

LEDs laterally integrated in the fork blade.

Inner LEDs ...

... to determine the entry depth

# SmartFork<sup>®</sup> Flash

## Technical information

### Energy supply

#### Energy transfer: Mast cable, spiral cable

- Permanent energy supply, connection to the electrical system

### Scope of supply

1 SmartFork<sup>®</sup> incl. integrated LED strip according to the desired function

1 fork as counterpart

Assembly material and tools are not included in the scope of supply.
