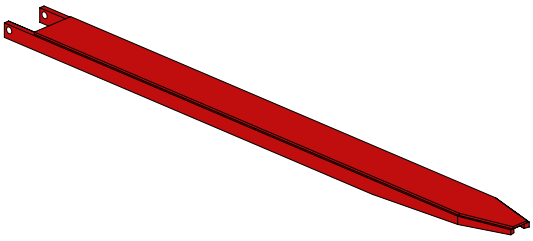
Extension design

The fork extension should not be longer than 150 % of the supporting fork length.

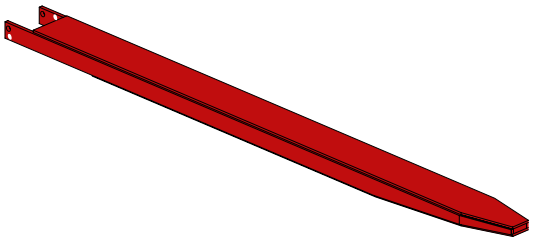
☐ **open**

The underside of the extension is open for light or medium usage.
The load is allowed to have its load center in the area of the supporting fork.



☐ **closed**

The underside of the fork extension is closed.
The extension is suitable for heavier usage.
The load is allowed to lie in the area which is not supported by the fork.



Special design

☐ **for attachments** ☐ **for hand lift trucks**

☐ _____
