A MUST FOR ROAD TRAFFIC ZEBRA WARNING BARS

One reason for accidents with (fork) lift trucks: forks are hard to recognize at first sight. With the innovative ZEBRA warning bars made by VETTER you are on the safe side.

- ▶ **Special reflector foil** in red-white hatching is visible from afar
- ▶ Accident prevention
- ▶ Maximum security for example on car parks, at exits, in poor visibility, during in-house traffic and in workshops
- ▶ Quick and easy assembly: magnetic pockets for all types of forks
- ▶ 4 additional magnets at the outer side of the warning bar: Easy mounting at the forklift when not in use

For safety reasons it is highly recommended to use warning bars when operating forklift trucks in road traffic.

Article No.	Description	Dimensions	Application	Weight
WBRW-800-8M	Warning bar red-white with 8 magnets	80 x 40 x 800 mm	up to 15 mm tip thickness	2.3 kg
WBRW-1000-8M	Warning bar red-white with 8 magnets	80 x 45 x 1000 mm	up to 25 mm tip thickness	2.6 kg
