

Anti-slip / anti-noise ForkCoatings

Slip resistance and load protection

- ▶ Protection of transported goods
- ▶ Slip resistance in dry and wet conditions (in case of humidity only GrippFix)
- ▶ Reduction of damages
- ▶ No scratches on goods
- ▶ Less vibrations
- ▶ Noise reduction, especially when transporting metal parts in residential areas / at night
- ▶ Abrasion and cut resistance for long operating life
- ▶ Higher safety at work: no risk because of slipping load
- ▶ Reduction of damages to the goods (impact protection at the fork back)
- ▶ **Spray coating:**
 - All-around coatings of the fork blade / fork back possible
 - Very small coating thickness
 - Optional: colored markings in the coating to specify how deep to enter into the pallet

GrippFix black with collision protection and lateral chamfer
